

POSH LIGHTING

Looking for the perfect lighting solution but don't know where to start? Check out our quick guide designed to help you kick-start your search!

WHAT ARE YOUR GENERAL LIGHTING NEEDS?

Are you wanting to enhance room décor, perform visual activities, create mood and atmosphere or ensure safety and security? Task lighting can help bring much needed light to a poorly lit office. Properly placed exterior lighting can not only improve curb side appeal, but also increase visibility and security.

THINK ABOUT YOUR SPACE

Where will your fixture be installed? What tasks or activities take place in that area? What are the dimensions of your ceilings, counters and nearby surfaces? Here you can consider the size of your fixture relative to where it will be installed and just how much light is needed. The room will often determine the type of lighting needed.

WHAT STYLE WORKS BEST FOR YOUR HOME OR BUSINESS?

Are you looking for transitional or contemporary styling? Modern or traditional? Country or rustic? Most fixtures can be categorized by style, and so this helps narrow down your search significantly.

NOW FOR THE DETAILS!

What finish and detailing works best with your current décor? Polished nickel or oil rubbed bronze? Wrought iron or solid brass? What kind of light source would you prefer? LED or incandescent? Cool or warm light? Lighting can be an expression of your personality so don't be afraid to make a statement with your selection!
